# BATTALION OF BATAINIS WILL BE NEXT

News is That It Will be Authorized in a Few Days.

## RECRUITING

It Has Been Slow and Some Special Means Will be Needed.

For the month of January up to the 16th, 381 men were accepted for the 10th Battalion, the number including fifty who have not yet reported. Over half of the number were secured by the green arm brigades, who worked the week before last. The special Canadian recruits are not much better, although in very few days. A review of the work of the past few weeks by the military men has persuaded them that the men required of Hamilton will not be raised by any ordinary means, but that some steps of a persuasive nature will have to be taken.

On Saturday last fourteen men made application for enlistment, and the Canadian regiment a record when five of that number were Canadian, and they were the only ones accepted. Some others were rejected and others told to report again.

Of the 324 men who registered between the first and sixth of January and who have reported, 98 were Canadian, 144 Englishmen, 5 Irishmen, 13 Scotchmen and 5 were other nationalities. The percentage of Canadian was 42.

What the next move to be made in Hamilton will be not yet known, but within a day or two some of some kind will be taken. Ordinary methods of bringing men into the recruiting office have failed down in this city, but all over the division. As a consequence some concerted action is bound to follow, for the recruiting has not nearly reached the number of men required.

In Hamilton the raising of the Canadian battalion will take some attention, if it materializes. An interesting announcement a record which will be made shortly. Rev. W. G. Martin, of First Methodist Church, has been authorized to call on the city, consulting with Lieut.-Col. Robertson in regard to it.

The "battalion" battalion will require attention from the recruiting authorities, but notwithstanding them, the effort to bring in recruits will have to be given serious consideration.

During the morning the regular recruiting officers attended a meeting, at which they were urged to continue without delay, for the recruiting has not yet reached the number of men required.

Authorization of the Battalion will be made in a few days. The possible Major F. L. Burton, of the 10th Overseas Battalion, will be mobilized in Toronto. Batain of Hamilton are asked to register at the recruiting office, at the armory at once, according to an announcement.

The battalions must be five feet, ten inches in height, and upwards of five feet, four inches, though there is possibility that men under five feet, two inches, will be accepted. The chest measurement must be 36 inches, certainly not the dimensions of a gladiator. And it is desired that men who are registered at the club should register at once, if they are willing to go overseas.

An order was issued from Toronto to this morning that a report be sent to divisional headquarters as to whether the local corps and other units. This is the first step in affecting the organization of the corps. Such a register does not exist in this city, that is at least the case of the "little ones" were turned away as soon as the examining officers found a good look at them, and they were turning to a question as to their height, that they were underlined.

With the 1916 Battalion the taking over of the 3rd company on Saturday last was the chief matter of interest over the past few days. The officers of that company were given their mandate, and on Saturday afternoon, and about midnight, the men were ordered to them felt a little chilly last night, but several changes were ordered, and they were in the morning, the men were satisfied.

Rev. Canon Daw conducted the church service yesterday morning, and those of the Roman Catholic faith who were at St. Joseph's Church for the service. The drum band service was assisted by the band.

Major Cannon announced this morning that the company officers of No. 1 had not been selected yet. Other than Lieut. Palmer and Beckett.

Lieut. Roberts has been placed in command of the battalion. The men and other leaders have arrived and the officers were wearing their pilot uniforms. The men were in the morning, making it out of the barracks and the barracks.
